

## DETAILED ACTION

### *Remarks*

1. As a preliminary matter, Examiner thanks the Applicant's representative, Stuart Kaler, and the engineers of Clairvoyante Inc. for the courtesies extended in the phone interview on November 07, 2007. During the interview, the engineers explained the cause of the image degradation and the parasitic effect which are disclosed in the claims to help Examiner to understand the concept of the instant invention accurately. However, as discussed in the previous Office Action, since the claims disclose, "any image degradation" and "any parasitic effect" being placed upon a column of blue sub-pixels regardless of what the specification discloses or explains regarding the image degradation or the parasitic effect, the claim fails to comply with the enablement requirement.

Examiner respectfully suggests the Applicant to amend the claims and specification to include the cause/source of the image degradation/flickers, explicitly.

Examiner attempted to contact the Applicant's representatives, Stuart P. Kaler and Judith C. Bares at (707) 824-2487 and (707) 824-2486 to discuss regarding the claims, but the phone lines were not operating.

As a courtesy to the Applicant, this Office Action is made Non-Final.

### *Response to Arguments/Amendment*
